MATRIX CUSTOMER  
SERVICE CENTERAssistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

Pursuant to 37 CFR 1.98(d), Applicants request that all references cited or submitted to the U.S. Patent and Trademark Office in prior Application number 08/324,003, filed October 14, 1994, be made a part of the record of the present file. A copy of the related application's filing receipt is attached.

Where the publication date of a listed document does not provide a month of publication, the year of publication of the listed document is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the month of publication is not in issue. Applicants have listed publication dates on the attached PTO-1449 based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that a search has been made, or that information more material to the examination of the present patent application does not exist. The Examiner is specifically requested not to rely solely on the material submitted herewith. It is further understood that the Examiner will consider information that had been cited by or submitted to the U.S. Patent and Trademark Office in the prior application relied on under 35 U.S.C. § 120, 1138 OG 37, 38 (May 19, 1992).

It is respectfully requested that the Examiner initial and return a copy of the enclosed PTO-1449, and to indicate in the official file wrapper of this patent application that the documents submitted in prior application number 08/324,003, filed October 14, 1994, have been considered.

This Information Disclosure Statement is being filed more than three months after the U.S. filing date AND after the mailing date of a first Office Action on the merits, but before the mailing date of a Final Rejection or Notice of Allowance. Attached is our check in the amount of \$240.00 in payment of the fee under 37 C.F.R. § 1.17(p).

The U.S. Patent and Trademark Office is hereby authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 08-3038.

Respectfully submitted,

Date: December 14, 1998
